PROJECT EXPERIENCE

Adoptable Pet Finder App (in development) — Find adoptable pets by location search

- Spring Boot application coded with Java/JavaScript for LaunchCode LiftOff group project
- Uses API to generate a list of adoptable pets within a location search range
- User can filter search between dogs and cats, make an account to save favorite pets, and get directions to the pet's location using another API directly on the pet's details page

WORK EXPERIENCE

Clinic Supervisor, Homeward Bound Pet Adoption Center, Blackwood, NJ, June 2017 – August 2021

- Training, overseeing and delegating tasks to staff
- Working with my manager to create/evaluate/implement clinic protocols
- Communicating with other departments in shelter clearly and constantly
- Record keeping and organization; data entry in to our online database
- Working alongside the veterinarian to perform exams and develop a course of action for each animal
- Misc veterinary technician duties: blood collection/testing, medication/vaccination/anesthesia distribution, euthanasia, dental procedures, medical equipment maintenance, etc...

Veterinary Technician, VIP Petcare, Cinnaminson, NJ, September 2015 – January 2017

- Many of same duties listed above
- Set up/take down mobile veterinary clinic
- Maintain positive relationships with our store partners

Replenishment Associate, Michael's Craft Stores, Sicklerville/Deptford, NJ, October 2012 – January 2017

- Organizing and stocking store shelves
- Unloading shipments from delivery trucks
- Setting and updating planograms
- Maintaining inventory and counting stock
- Training new employees
- Customer service
